

## **Table A – Results of Internal Review Committee**

Date of Report: July 7, 2005

Water Body Under Evaluation:

Identification #: 1582  
Name: Trib to Beeler Branch (C)  
Length of Segment: 1.0 miles  
County (ies): Texas

Use Attainability Analysis Study:

Identification #: 1082  
Submitter: DNR staff - Marshaus and Dowdy  
Date Received: July 12, 2005  
Use Evaluated: Whole Body Contact Recreation (WBCR)

UAA Completeness Check:

All Required Information Included?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Correct Forms Used?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Forms Signed and Dated?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Comments:		

UAA Criteria Evaluated:

- ☐ 1-Natural Pollutant Sources.
- ☒ 2-Natural, Ephemeral, Intermittent or Low-Flow Condition.
- ☐ 3-Non-Remedial, Human Caused Condition.
- ☐ 4-Hydrologic Modifications.
- ☐ 5-Natural Physical Features.
- ☐ 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown  
Comments:

Is the evaluated use attainable? ☐ Yes ☐ No

Comments: The UAA was conducted in July 2005 and no WBCR was observed. The stream was dry at this site. This site was in very headwaters one mile from its mouth into Beeler Branch, which will retain the WBCR use. Since there is only 1 site and no evaluation near the mouth, the committee feels there is not enough information to make a determination about the WBCR designation and recommends more data be gathered.

**Committee Recommendation:** ☐ Retain Use ☐ Modify Use ☐ Remove Use ☒ Inconclusive

Committee Members: Kimberly Hoke, Anne Peery, Priscilla Stotts
